Experienced Computer Programmer resume template

JAY SMITH

71 Fifth Ave. Sometown, NY 11597

Home: 555.555.5555 | js@somedomain.com

SENIOR PROGRAMMER

- Results-driven lead programmer offering extensive experience within both Fortune 500 and startup environments. SCJP and SCJD certified.
- Able to incorporate user needs into cost-effective, secure and user-friendly solutions known for scalability and durability.
- Innovator of next-generation solutions, systems and applications fueling major improvements to the bottom line.
- Proven leader and project manager; drive system architecture decisions and lead projects from concept through the release process.

Technology Summary

- Languages/Programming: Java, J2EE, C, C++, Perl, PHP, VB.Net, SQL Server, ASP.Net, HTML, XML, SAP, ActiveX
- Systems: AIX, Linux, Unix (Solaris/HP-UX), Windows XP/NT v4.0
- Networking: TCP/IP, SFTP, FTP
- Databases: DB2, Oracle 8/7, Informix, MS Access

Professional Experience

ABC COMPANY -- Sometown, NY

Lead Programmer, 2009 to Present

Develop, maintain and support application programs for administrative, Web and mobile systems using Java and related tools. Analyze code for system testing and debugging; create test transactions to find, isolate and rectify issues; and manage a team of three programmers.

Accomplishments:

- Reengineered multiple systems that fueled improvements to productivity, efficiency, uptime and accuracy for global business operations. Developed code, system design and test/QA plans for all solutions and often coordinated the national or international rollout.
- Led, architected and participated in the design, testing and deployment of client/server, multitier applications, ActiveX and related components.
- Developed new procedures for requirements gathering, needs analysis, testing, scripting and documentation to strengthen quality and functionality of business-critical applications.
- Developed large-scale, portable, thread-safe and ultra-high performance foundation and application infrastructure libraries.
- Trained and mentored junior programmers in programming methodologies and best practices.
- Delivered back-office tools supporting ecommerce initiatives, enabling company to compete more effectively in the marketplace through search-engine optimization.
- Served as a core group member in defining and prioritizing technology investments for the next two years, ensuring the alignment of process, technology and business objectives.

XYZ.COM -- Sometown, NJ

Lead Programmer, 2002 to 2008

Led programming tasks including enhancements, maintenance and support for clients' applications and interfaces. Engineered software products, handling complex analysis and intricate programming to meet project requirements.

Accomplishments:

- Led solutions engineering that involved process automation, macro conversion and functionality enhancement. Replaced time-consuming, error-prone manual processes with elegant, automated solutions.
- Developed and implemented cross-platform, Java-based POS system. Completed project under budget and three weeks ahead of deadline.
- Coded new solutions that increased availability and scalability by 45% and 75%, respectively.

DEF COMPANY -- Sometown, NJ

Programmer II / Programmer I, 2000 to 2002

Help Desk Analyst, 1998 to 2000

Progressed through promotions, culminating in responsibility for Web-based application programming within high-volume setting. Became adept in analyzing code for system testing and debugging.

Education & Credentials

ABC UNIVERSITY -- Sometown, NY

MS in Software Engineering Candidate, 2010 to Present

Current GPA: 3.8 | Expected Graduation: 2012

DEF UNIVERSITY -- Sometown, NJ BS in Computer Information Science, 1998
